# Introduction

OBSESSION is the gathering for real car enthusiasts.

The show includes everything from purpose-built track cars to daily-driven street builds, as long as they carry intent. It's a space for people who live and breathe cars to bring out the machine that matters most to them, whatever shape that takes.

Whether it's a drift car held together by zip ties, a track day weapon, a slammed VIP build or a clean modern OEM+ machine, if the car reflects your vision and passion, it belongs here.

This isn't a traditional show and shine. Judging is based on expression, execution and how well the car embodies its style. We're interested in fully realised builds. Machines that stand behind a clear point of view.

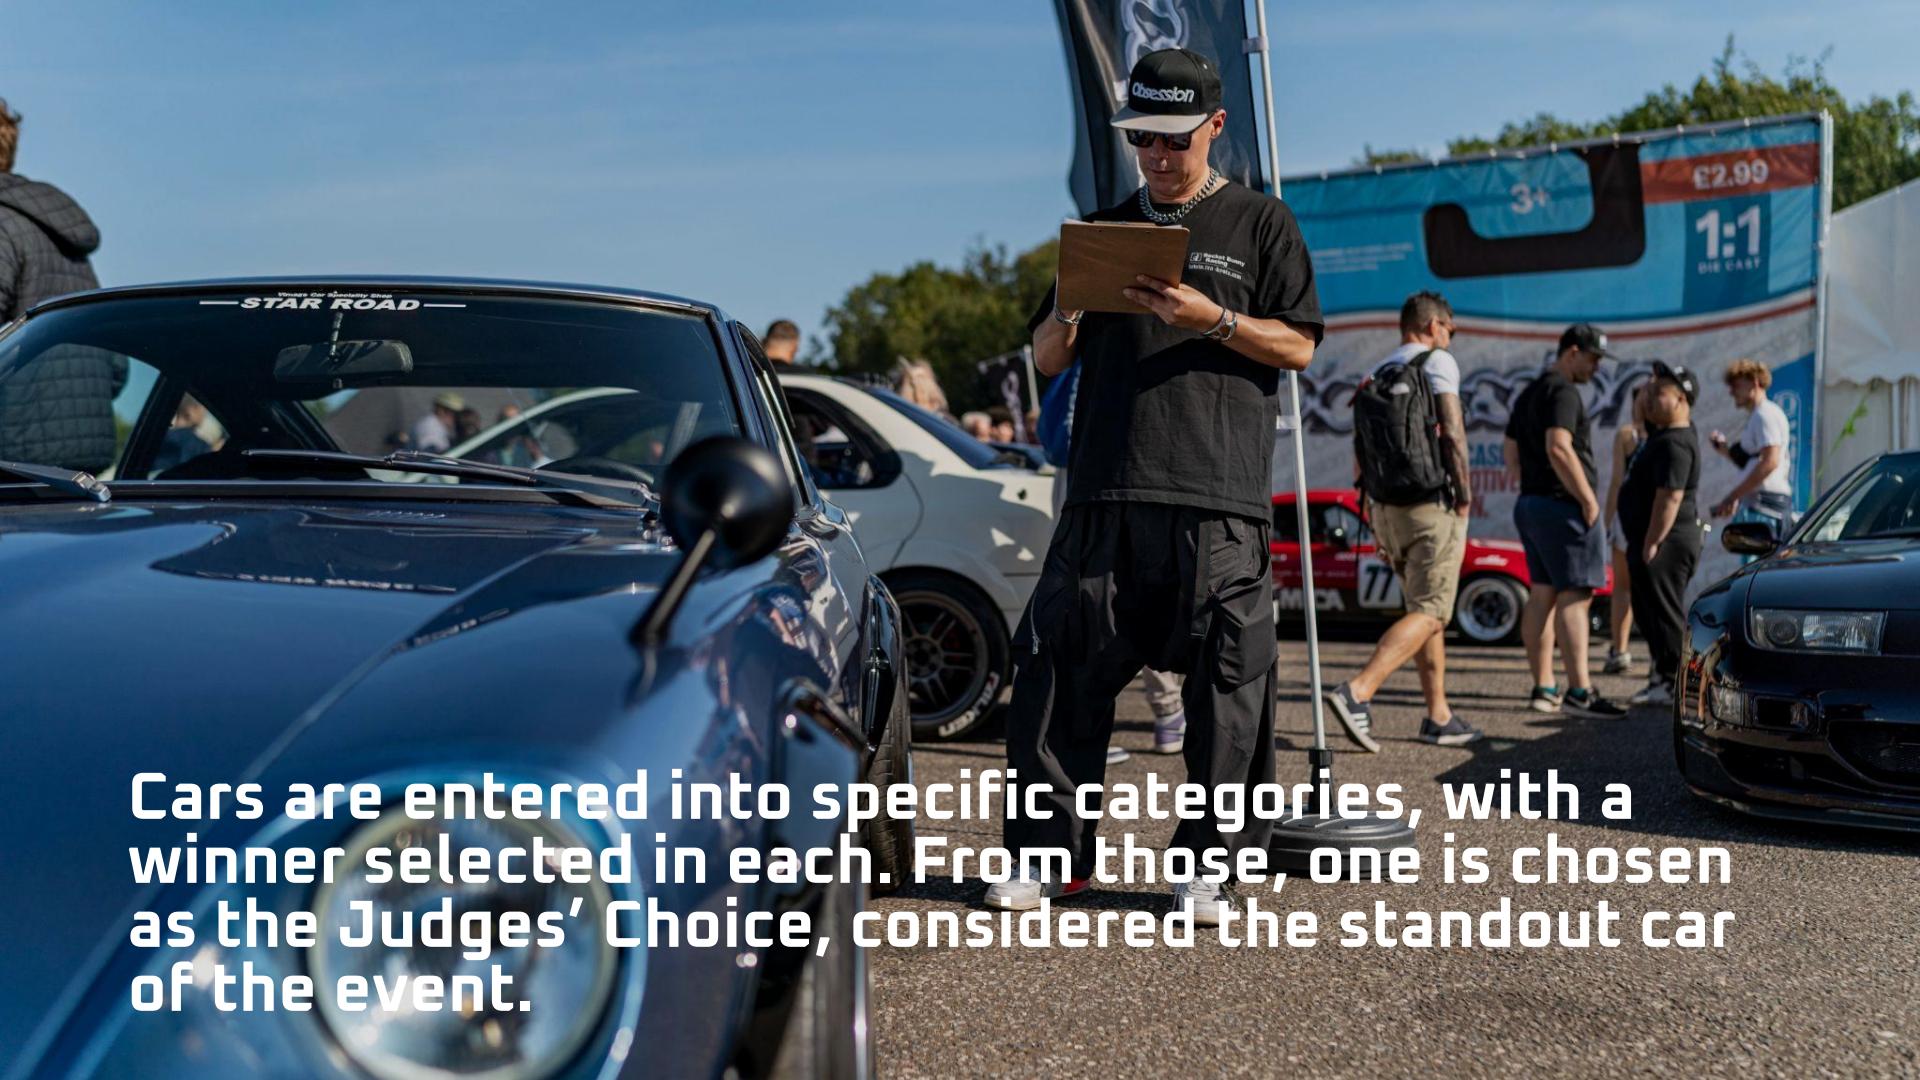

Above all, OBSESSION is about community. Come to show your car, meet other enthusiasts and enjoy a proper day out with people who get it.

# Obsession

**OBSESSION** celebrates all aspects of car culture.

**Cars are entered into specific categories, with a winner selected in each. From those, one is chosen as the Judges' Choice, considered the standout car of the event.**

Winners in each category receive custom metal lanyards, a limited-edition OBSESSION hat and their trophy.

Each event also features a large indoor marquee where top builds are displayed. It's a chance to walk through, take in the details and connect with others who care about the culture.
